Frequently Asked Questions - FAQ 1240

Category: General / Misc

FAQ 1240

Question:

I am a student. How do I access Office Professional Plus?

Answer:

If your district participates in EES licensing and has enabled Office Professional Plus, students can download Office on up to five home computers by using the following steps:

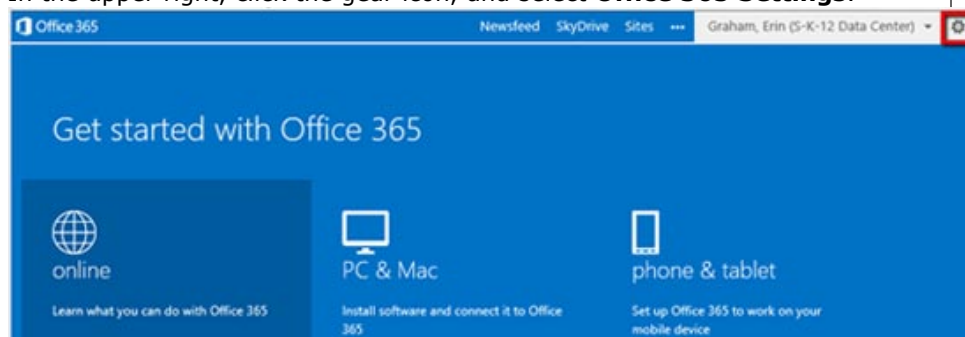

Note: In order for Office Professional Plus to maintain full functionality, the computer on which it is installed must be able to connect to the internet every 30 days to confirm license compliance.

If a computer goes more than 30 days without internet access, Office Professional Plus will go into reduced functionality mode (can open Office documents but can't modify or edit them) until it can access the internet and confirm license compliance.

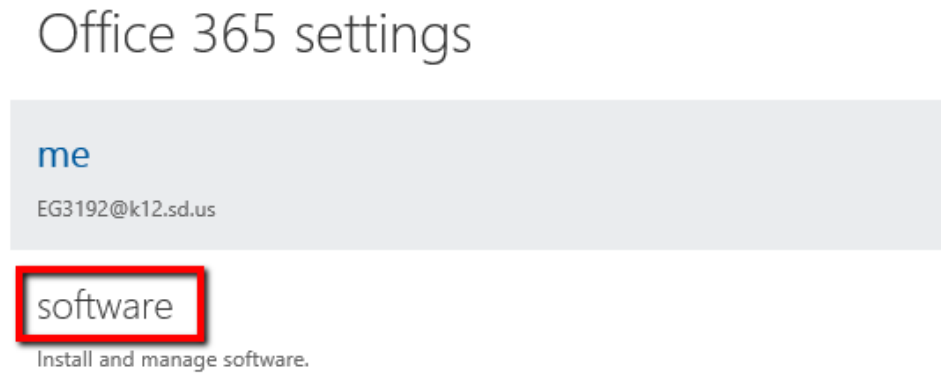

If a student no longer has a K-12 account, graduates, or transfers to a school that isn't participating in EES, their Office Professional Plus software will go into reduced functionality mode.

To install Office Professional Plus

1. Log in to Office 365 using the steps in FAQ 1174.
2. The look of your Office 365 account will vary depending on what tools have been provisioned to you.
 - If Office 365 opens to the software screen, proceed to step 3.
 - If Office 365 opens to the following screen:
 1. In the upper right, click the gear icon, and select **Office 365 Settings**.

2. Click **Software**.

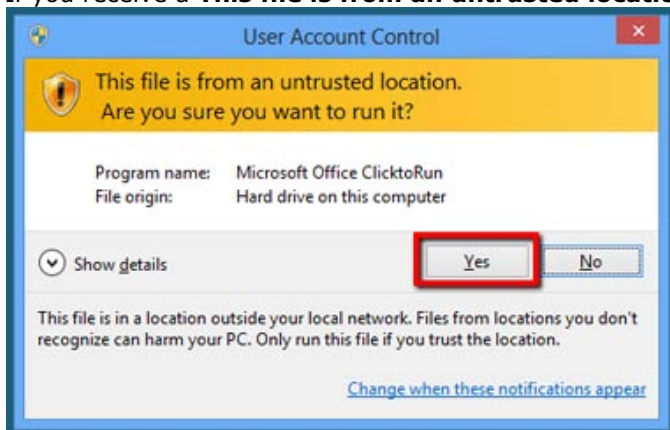

3. On the software screen, click the **Install** button.

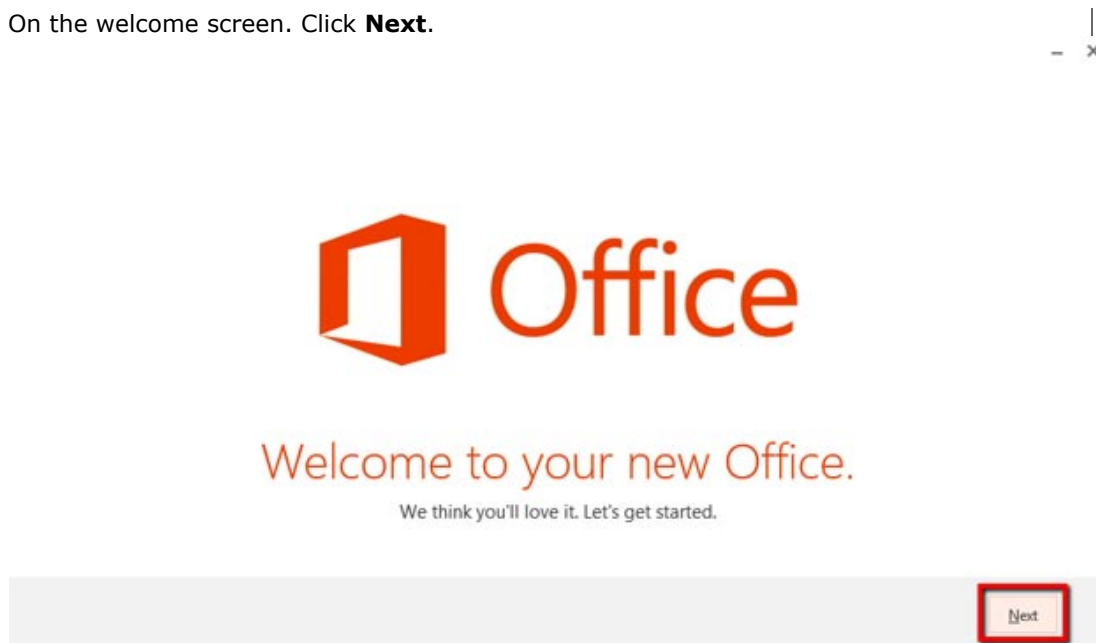

4. If prompted to run or save, click **Run**.

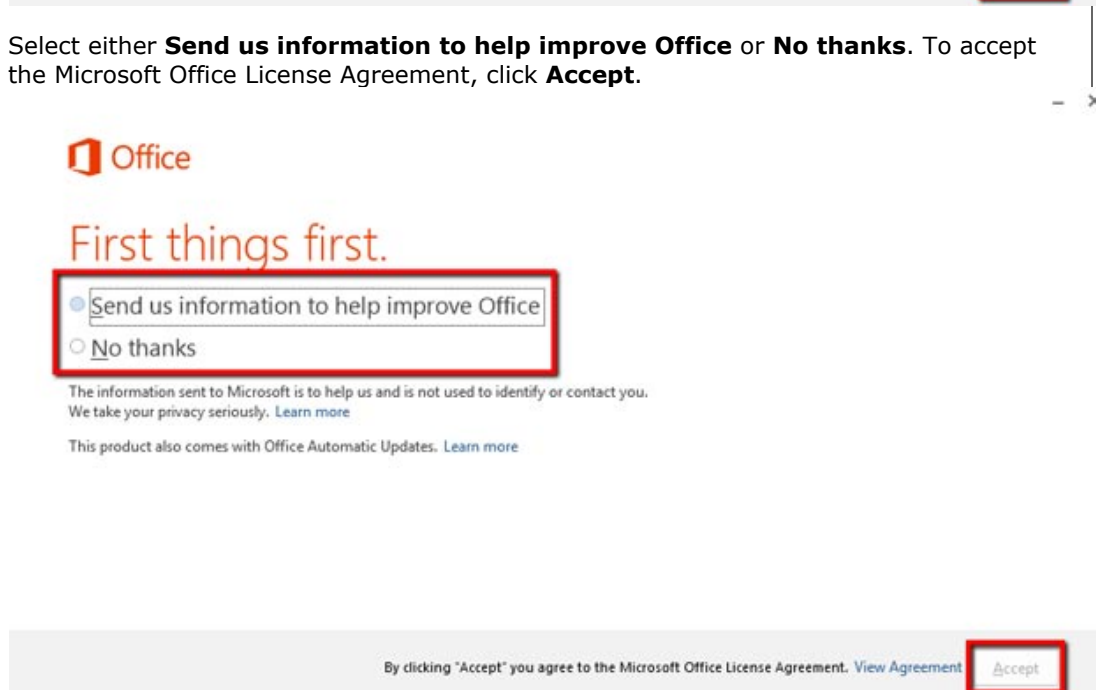

5. If you receive a **This file is from an untrusted location** prompt, click **Yes**.

6. On the welcome screen. Click **Next**.

7. Select either **Send us information to help improve Office** or **No thanks**. To accept the Microsoft Office License Agreement, click **Accept**.

8. On the Meet OneDrive page, click **Next**.
9. Select your desired look for Office, and click **Next**.

10. To walk through an Office tutorial, click **Take a look**. Otherwise, click **No, thanks**.

We're getting things ready.

Office has lots of great new stuff, and we'd love to show you around while we wrap things up. Here's a quick introduction on what's new.

Take a look

No, thanks

11. After Office loads, click **All done!**.

You're good to go.

We're all done, and you can now go offline if you need to. Enjoy!

All done!

12. Your Office software is now installed and ready to use.
