# Internet Searching

## Directions:

1. Find the answer to each question below by searching the Internet!
2. Identify/list the search engine used. (Google, Yahoo!, WolframAlpha, etc...)
   o Each engine can only be used 4 times...choose wisely!
   o WikiAnswers and/or Wikipedia are NOT to be used for results/answers.
3. Identify the complete URL. (copy and paste directly from the Browser)
   o This should take me directly to your answer.
4. Type down the answer to the question in the results section
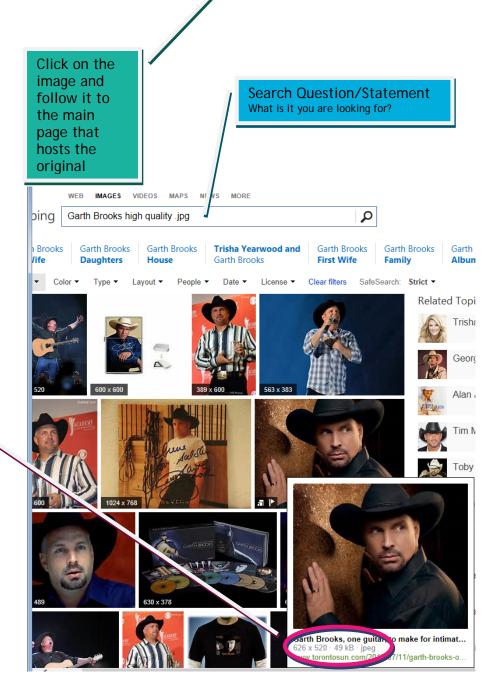

### This is NOT a group assisted searching project ☺

1. Find a picture of Garth Brooks that is of good quality (larger file size and not a .gif format).
   Search Engine Used: Bing Images
   Search Question/Statement: Garth Brooks high quality .jpg
   URL: http://storage.canoe.ca/v1/dynamic_resize/sws_path/suns-prod-images/1341424997860_ORIGINAL.jpg?quality=80&size=650x
   Results:

**Click on the image and follow it to the main page that hosts the original**

**Search Question/Statement**
What is it you are looking for?

**The larger the file size the higher the quality of the image 49kB is a good size file.**
**This area also tells me that it is a jpeg image.**
